Site Audit Recommendations for melanua.com

1. CRITICAL ISSUES (Fix Immediately)

There are currently no critical issues found in the audit data.

2. QUICK WINS (30 min or less each)

#	Issue	Affected Resource	Savings	Fix
1	404 Error for Missing Image	https://melanua.com/static/images/journal-placeholder.jpg	N/A	Ensure the image exists or remove the reference from the code.

1	404 Error for Missing Image	https://melanua.com/static/images/journal-placeholder.jpg	N/A	Ensure the image exists or remove the reference from the code.
---	-----------------------------	---	-----	--

3. MEDIUM EFFORT (1-4 hours)

There are currently no medium effort issues found in the audit data.

4. DJANGO-SPECIFIC FIXES

Cache Headers

- No cache issues found in the audit data.

Static File Configuration

- Ensure that all static files are correctly served and referenced. The 404 error indicates a missing image, which should be addressed.

WhiteNoise Settings

- No issues found with WhiteNoise settings in the audit data.

5. PRIORITY ACTION PLAN

#	Issue	File/Element	Savings	Effort	Implementation
1	404 Error for Missing Image	https://melanua.com/static/images/journal-placeholder.jpg	N/A	30 min	Medium

---	-----	-----	-----	-----
-----	-------	-------	-------	-------

| 1 | 404 Error for Missing Image | <https://melanua.com/static/images/journal-placeholder.jpg> | N/A | Low | Verify the existence of the image or remove the reference in the code. |

6. MONITORING CHECKLIST

- Target Performance: 86.84615384615384+ (current: 66.84615384615384)
- Target SEO: 100 (current: 100.0)
- Target Accessibility: 100 (current: 93.76923076923077)

Additional Recommendations

- ****Improve LCP**:** The LCP is currently at 5.13s, which is above the target of <2.5s. Consider optimizing images and ensuring that the largest contentful paint element is loaded quickly.
- ****Monitor Core Web Vitals**:** Regularly check the performance metrics to ensure that they meet the targets set for LCP, CLS, and TBT.

Conclusion

While there are no critical or medium issues found, addressing the 404 error for the missing image is essential. Additionally, focus on improving the LCP score to enhance overall performance.
